The New Age Collection

Rezas

**N**ew Age rugs offer an elegant blend of colors through irregular stripes and shapes. The contrast between light and dark shades enhances the rugs visual appeal, allowing customers to choose between a light-colored rug with dark stripes and shapes or vice versa.

**R**eza's newest release, the New Age Collection, is a joint creation with Gabrielle Jangeby, the owner of DIS Inredning in Stockholm.

Drawing from her optimistic worldview, spiritual outlook, and passion for rugs, Gabrielle has crafted a stunning array of rugs known as the New Age collection.

The rugs within this collection are meticulously hand-knotted using 100% fine handspun wool, resulting in a luxurious and thick pile.

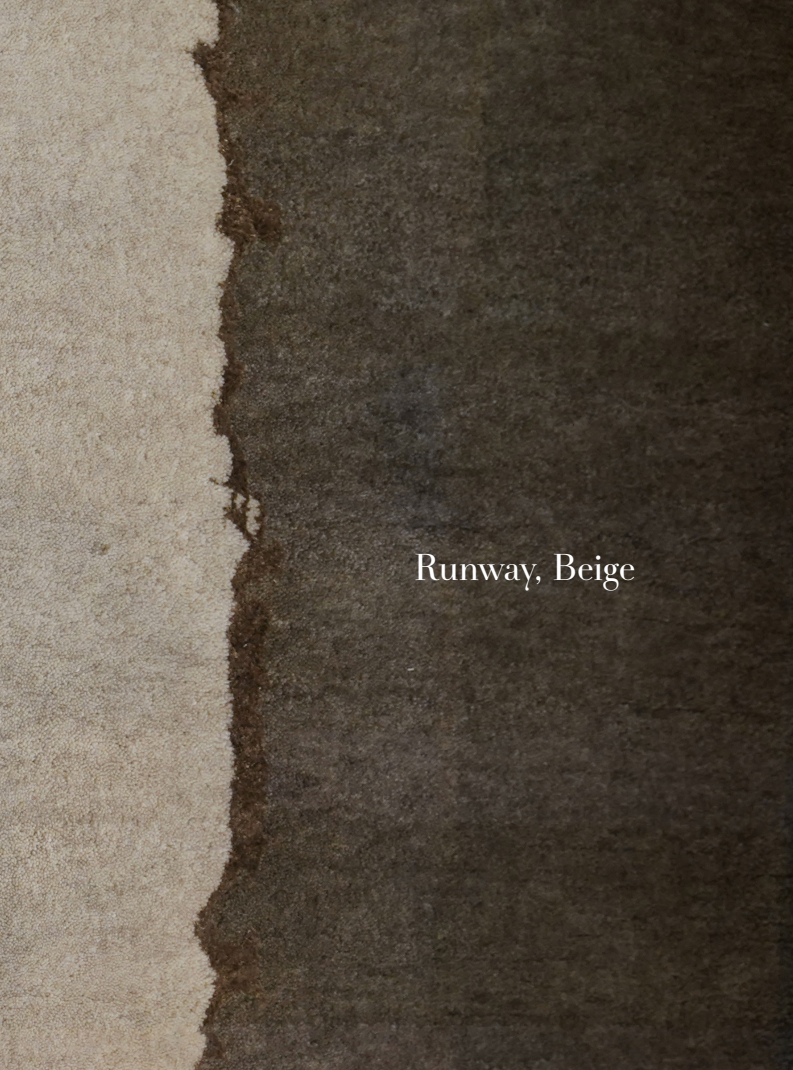

New Age rugs offer a soft and plush texture, creating the sensation of walking on clouds.
